## Term 3:

This term the children have participated in activities that have focussed on Mythical Creatures, Water and Colours of the Rainbow. These program categories are based around the children's interests, strengths and potential learning opportunities.

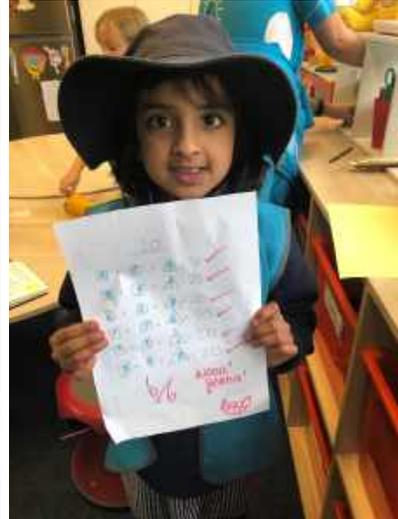

Our program encourages the children to participate in our daily programmed activity but also encourages the children to take part in free choice play.

The children have particularly enjoyed delving into the world of fantasy with our mythical creatures program where the children have made dragon masks, wizard wands and built castles. These activities aim to utilise a range of skills such as problem solving, inquiry, experimentation, researching and investigating.

Outdoors, our educators have participated in and encouraged the children to engage in physical activity through sports and team games such as chasey, red rover and marks up. This provides the children with the opportunity to develop their team work, communication, proprioception and motor skills.

We look forward to all of the fun and learning that Term 4 holds!
